Twitter Career Chat

What is a Twitter chat?

A Twitter chat is a conversation over Twitter using a unique hashtag surrounding a given topic. You’re welcome to join in at any time! Just use the hashtag #KGSBcareerchat in your tweets. Remember to start your tweet with something other than @, so that everyone in the conversation can see your tweets.

How to Participate:

1. At the time of the scheduled chat, log into Twitter and type #KGSBcareerchat into the search bar. If you do not have a Twitter account, you can still see the chat, but you’ll have to create an account if you want to participate.
2. The chat moderator, @DePaulMBACareer will begin the chat by introducing the topic. @DePaulMBACareer will then start off the Q & A with a question.
3. Every new question will begin with Q and then the number of the question. Answers to the question will begin with A and the corresponding number.

   For example:

   Q1 – What’s the best way to find out if a career is right for me? #KGSBcareerchat
   
   A1 – Do an informational interview with someone in the field and volunteer in the industry to get hands on experience #KGSBcareerchat

4. Join the conversation at any time by including #KGSBcareerchat in your tweets
5. You can use TweetChat if you’d like a more chat room type of environment. TweetChat automatically adds the hashtag to each tweet for you.
6. Follow @DePaulMBACareer to stay up to date on when the next twitter career chat will be held.

Tweeting 101:

- **Hashtags**: The # symbol, called a hashtag, is used to mark keywords or topics in a tweet. If you tweet with a hashtag on a public account, anyone who does a search for that hashtag may find your Tweet.
- **Usernames**: The @ sign is used to call out usernames in tweets: “Hello @DePaulMBACareer!” People will use your @username to mention you in tweets, send you a message or link to your profile. It’s similar to tagging someone on a Facebook post.
- Starting a tweet with their @username will send a private message to that user. To make sure everyone can see your tweet, start it with something other than @.
- There is a 140 character limit on tweets.
